ANNEXE au cours SAS PARTIM 1

# Le site ESS

► <http://www.europeansocialsurvey.org/>

The screenshot shows the homepage of the European Social Survey (ESS) website. At the top left is the ESS logo, a stylized red 'E' with the text 'European Social Survey' next to it. To the right of the logo is the text 'Winner of the 2005 Descartes Research Prize'. Below the logo is a search bar with the placeholder text 'search...' and a 'Find' button. A navigation menu is located below the search bar, with items: 'About ESS', 'Data and Documentation', 'Questionnaires', 'Research', 'Resources', 'News Archive', 'Participant Countries', 'Downloads', and 'Intranet'. The main content area is titled 'Home' and contains several paragraphs of text. The first paragraph describes the ESS as an academically-driven social survey. The second paragraph mentions the ESS's sixth round and its focus on 'topline' results. The third paragraph lists funding sources. The fourth paragraph identifies the project director, Rory Fitzgerald, and the institutions involved. A bulleted list follows, listing the participating institutions: NSD, Norway; GESIS, Germany; The Netherlands Institute for Social Research/SCP, Netherlands; Universitat Pompeu Fabra, Spain; University of Leuven, Belgium; and University of Ljubljana, Slovenia. At the bottom of the main content area, there are two lines of text: 'If you have a general enquiry about the ESS or wish to comment on the website, please contact the team at City University London.' and 'If your query concerns access to data, contact the archive at NSD, Norway.' On the right side of the page, there is a 'LATEST NEWS' section with a list of recent updates, including 'ESS Data User Statistics available for September 2012', 'ESS Round 6 Source Questionnaire and Documents now available', 'New ESS Multilevel Data resource Now Available', 'ESS Data User Survey 2011 - Report Now Available', and 'ESS Round 1-5 Event Database Updated'. At the bottom of the page, there is a footer with the text 'European Social Survey © 2009 | Design by Biteinto.net' and 'kredi karti takotlendime'.

## The European Social Survey

The European Social Survey (the ESS) is a biennial multi-country survey covering over 30 nations. The first round was fielded in 2002/2003, the fifth in 2010/2011.

The project is funded jointly by the European Commission, the European Science Foundation and academic funding bodies in each participating country, and is designed and carried out to exceptionally high standards. The project is directed by a Core Scientific Team led by Rory Fitzgerald at the Centre for Comparative Social Surveys, City University, London.

The European Social Survey (the ESS) is a biennial multi-country survey covering over 30 nations. The first round was fielded in 2002/2003, the fifth in 2010/2011.

## ESS Online Analysis

**ESS4 Austrian data released**

The Austrian data for ESS round 4 was released 28.09.12. The release also includes Austrian interviewer and parents' occupation data. All data files are accessible under country files on the [ESS4 - 2008 Data Download page](#). (28/09/12)

---

**ESS Multilevel Data launched**

The ESS Multilevel Data resource, partly funded by the [Descartes Research Prize](#) awarded the ESS, was launched on 18th of September.

The ESS MD is a resource that contains data about individuals (the ESS respondents), regions and countries, and incorporates contextual variables on a number of themes, including demography, geography, economy, health, education and crime. (18/09/12)

---

**ESS5 First edition (1.0) of test data**

The first edition of test data (edition 1.0) from supplementary questionnaire for ESS round 5 was released on September 3rd, 2012.

## The questionnaire

The questionnaire includes two main sections, each consisting of approximately 120 items; a 'core' module which remains relatively constant from round to round, plus two or more 'rotating' modules, repeated at intervals. The core module aims to monitor change and continuity in a wide range of social variables, including media use; social and public trust; political interest and participation; socio-political orientations; governance and efficacy; moral; political and social values; social exclusion, national, ethnic and religious allegiances; well-being; health and security; human values; demographics and socio-economics.

## Methodological data

The ESS collects a wide range of methodological data, including tests of reliability, call records, data on interview settings and event data.

## Access to data

The data are available free of charge and without restrictions, for not-for-profit purposes. To access data files, you have to register as an ESS data user. If already registered, log in with your registered e-mail address as username. You don't have to log in to get access to the documentation files.

- ▶ Ajoutez toutes les variables qui vous intéressent.

The screenshot shows the ESS DATA website interface. At the top, there is a red header with the European Social Survey logo and the text "ESS DATA". Below the header is a search bar and a navigation menu. The main content area displays a list of variables under the "ESS" category. The variables are organized into a tree structure with expandable sections. The "Politics" section is expanded, showing a list of variables including "Trust in the police", "Trust in politicians", "Trust in political parties", "Trust in the European Parliament", "Trust in the United Nations", "Voted last national election", and "Party voted for in last national election" for various countries like Belgium, Bulgaria, Switzerland, Croatia, Cyprus, Czech Republic, and Germany. A context menu is open over the "Party voted for in last national election" variable, showing options "Add to subset" and "View documentation".
